

# **IMPORTANT NOTICE**

regarding

## **X-RAY TECHNICIAN LIMITED PERMIT APPLICATIONS**

The Department has made a review of the requirements regarding acceptable X-ray Technician Limited Permit applications.

California Code of Regulations, title 17, sections 30442 thru 30445, require that an application be filed for each permit. Pursuant to these regulations, the Department will only accept applications for one limited permit category.

**EFFECTIVE MARCH 7, 2006**, the California Department of Health Services can **no** longer accept an application which includes more than one limited permit category.

Our current testing organization will schedule examinations for chest, extremities, and/or torso-skeletal categories in one sitting. An applicant may submit individual chest, extremities, and/or torso-skeletal applications together with a cover letter stating the combination of tests for which they wish to sit. Attach with each application, a copy of the required graduation diploma and required application fee. Then, mail these applications together with one examination fee under a single cover letter, signed and dated by the applicant, indicating which combination of these examinations the applicant wishes to take.
